Potential Impact of Strike Action on Wednesday 15th & Thursday 16th March 2023

Dear Parents and Carers,

I am aware you may be considering how the next round of industrial action may affect you and your child. At this stage I am unable to share plans for opening or closing as colleagues are still considering their plans on the days indicated and also I cannot confirm that previous arrangements will be the same on this occasion as they were on 28th February.

It may be prudent for you to make arrangements with family and friends and to speak to employers early (at this stage) so that you have childcare arrangements in place should school be closed to your child.

It is my intention to inform you of arrangements as I understand them on Monday 13th March.

I know that the industrial action has a direct impact on your child and your personal arrangements so I appreciate your patience, understanding and your support in this matter.

Whilst this action is a response from colleagues in our region and not a national strike, my understanding is still that it is taking place to reiterate how poorly funded our schools are as well as to raise awareness of the pay and conditions of our teachers. Should you wish to support the action and help voice the need for better funding, resources and services in our school you can do so by writing to your MP. For those of you living in our catchment area this is William Wragg.

Yours sincerely,

Adam Hossen
